Re: Brant Drive Bridge Replacement

Dear Mr. Falconi,

During a bridge inspection at Brant Drive Bridge in September of 2014, the structure was found to be functionally obsolete. The City of Delray Beach had the approach slabs replaced due to settlement issues. However, the entire bridge needed replacement. The City of Delray Beach received a grant from the Palm Beach Transportation Planning Agency (TPA) to replace the Brant Drive Bridge over the C-15 canal from Oregon Lane in Boca Raton to Avocet Road in Delray Beach. Delray Beach currently maintains the existing bridge and will continue the annual maintenance responsibility thereafter. The project will be executed by the Florida Department of Transportation with funds secured through the TPA grant. Construction is currently scheduled in FY 2021.

The City of Boca Raton is in support of the bridge replacement project.

Sincerely,
