

VISION ZERO WORKSHOP

Workshop Purpose: This workshop focuses on providing the key “Next Steps” after adopting a goal of zero fatalities and serious injuries.

Target Audience: Planners, engineers, landscape architects, elected officials, engaged citizens, and key decision makers with a desire to improve transportation safety.

Learning objectives:

- Understand the process of creating a Vision Zero Action Plan
- Pinpointing community partnerships and individuals to cultivate during plan development
- Improving established processes to create safer transportation systems
- Weighing technical analysis vs. actionable strategies to reduce fatalities and injuries
- Intersection hardening tools and techniques
