**WHEREAS**, the state of Florida has consistently ranked as the most dangerous state in the United States of America for pedestrians, ranking number 1 on the Pedestrian Danger Index by Smart Growth America; and

**WHEREAS**, the Miami-Fort Lauderdale-West Palm Beach urbanized area, which includes the Town of Lake Park (Town) consistently ranks as one of the worst metropolitan areas in the United States of America for pedestrian safety; and

**WHEREAS**, since 2002, an average of 187 people in Palm Beach County and 3,045 people in Florida have died annually on the state’s roadways; and

**WHEREAS**, Vision Zero starts with the ethical belief that everyone has the right to walk safely in their communities, and that system designers and policy makers share the responsibility to ensure safe systems for travel; and

**WHEREAS**, death and serious injuries are not acceptable for citizens, commuters, guests, or others who live, work, or play in the Town of Lake Park; and

**WHEREAS**, key elements of the Vision Zero system include: reframing traffic fatalities as preventable; focusing on system failure; reducing the impact of collisions; adopting a safe system approach for vehicles, bicycles and pedestrians; data-driven decision making; and viewing road safety as a social equity issue; and

**WHEREAS**, a roadway system with frequent crashes causes both travel delay and drains fiscal resources of the city, creating a threat to the success of the residential population and employment base, quality of life, and the reputation of the Town to be a desirable destination for future generations.

**Section 1.** The Town Commission hereby establishes the elimination of traffic fatality and the reduction of serious injuries due to traffic accidents as a goal of the Town.
