INTRODUCTION

The Palm Beach MPO, doing business as the Palm Beach Transportation Planning Agency (TPA or MPO), serves as the designated Metropolitan Planning Organization to administer the federally mandated transportation planning process for all of Palm Beach County. The TPA is part of a larger South Florida urbanized area referred to as the Miami FL Urbanized Area (UZA) that also includes the Miami-Dade Transportation Planning Organization (TPO) and the Broward MPO.

The Unified Planning Work Program (UPWP) is the TPA's plan of operations and budget which identifies the agency's transportation planning activities for the two-year period starting July 1, 2022 through June 30, 2024. The UPWP is approved by the TPA Governing Board via resolution dated May 19, 2022, signed by Palm Beach TPA Chair is available in **Appendix B**. The UPWP is guided by the TPA's vision of a safe, efficient, connected, and multimodal transportation system. The UPWP includes a description of planning work and resulting products, responsible agencies, schedules, costs, and funding sources.

The TPA's mission to collaboratively plan, prioritize and fund the transportation system is carried out pursuant to 23 United States Code (U.S.C.) §134, 49 U.S.C. §5303, 23 Code of Federal Regulations (C.F.R.) §450 Subpart C, and Section 339.175, Florida Statutes (F.S.).

"The FDOT and the Palm Beach TPA participate in the Consolidated Planning Grant (CPG). The CPG enables FDOT, in cooperation with the MPO, the Federal Highway Administration (FHWA), and Federal Transit Administration (FTA), to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division. These funds are annually apportioned to FDOT as the direct recipient and allocated to the MPO by FDOT utilizing formulas approved by the MPO, FDOT, FHWA, and FTA in accordance with 23 CFR 420.109 and 49 U.S.C. Chapter 53. The FDOT is fulfilling the CPG's required 18.07% non-federal share (match) using Transportation Development Credits as permitted by 23 CFR 120(j) and FTA C 8100.1D."

23 U.S.C. §120 permits a State to use certain toll revenue expenditures as a credit toward the non-Federal matching share of all programs authorized by Title 23, (except for Emergency Relief Programs) and for transit programs authorized by Chapter 53 of Title 49, U.S.C. This is in essence a "soft-match" provision that allows the Federal share to be increased up to 100% to the extent credits are available. The "soft match" amount being utilized to match the FHWA PL, and FHWA SU, and FTA 5305d funding in the UPWP is 18.07% of FHWA program funds for a total of \$2,005,591 and the "soft match" amount being utilized to match the federal fiscal year (FFY) 21 FTA funding in the UPWP is 20% of FTA program funds for a total of \$97,500.

Please note that all eligible expenses will be reimbursed on an actual cost basis and therefore an indirect rate will not be utilized.

The TPA is in an air quality attainment area and does not anticipate completing any non-attainment planning activities.

In addition, the TPA also receives funding from the Florida Commission on Transportation Disadvantaged (CTD) to implement transportation disadvantaged planning activities.

The TPA also receives funding from local participating agencies to advance the mission and vision of the agency in serving Palm Beach County.

Transportation Planning Activities

Continuing

Many TPA planning activities are continuing from previous efforts, as highlighted below.

The TPA performs continuing public engagement activities;

The current Long Range Transportation Plan (LRTP) was adopted by the TPA in December 2019 and amended in February 2020. The TPA monitors and updates the LRTP as necessary in coordination with participating agencies, stakeholders and the public;

The TPA assists local government agencies in evaluating, identifying and prioritizing funds for multimodal infrastructure projects that increase safety and access for all users;

The TPA coordinates with Palm Tran and South Florida Regional Transportation Authority (SFRTA) in planning transit services and performing updates to their Transit Development Plans (TDP) in order to select projects for inclusion in the Transportation Improvement Program (TIP);

The TPA continuously monitors all federally required and supplement local performance measures and identifies potential projects and strategies to achieve selected targets;

The TPA reviews the Strategic Intermodal System (SIS) cost feasible plan for consistency and potential inclusion in the TPA's LRTP and TIP;

The TPA reviews transportation projects using the Efficient Transportation Decision Making (ETDM), Electronic Review Comments (ERC), Multimodal Checklist and other processes.

Comprehensive

The planning activities of the TPA are comprehensive in addressing all modes of transportation (including walking, biking, transit, commercial vehicles, personal vehicles, etc.) and the manner in which they serve users of all ages and abilities.

Cooperative

The TPA cooperates with many participating agencies within Palm Beach County (PBC) and on a regional and statewide level to establish a safe, efficient, connected, and multimodal transportation system. The following are a list of entities that the TPA interacts with throughout the year:

Federal Agencies: FHWA and FTA

State Agencies: **FDOT**, Florida CTD, Florida Department of Environmental Protection (FDEP), Florida Department of Economic Opportunity

Metropolitan Planning Organization (MPO) Agencies: Florida MPO Advisory Council (MPOAC), Southeast Florida Transportation Council (SEFTC), Miami-Dade Transportation Planning Organization (TPO), Broward MPO, Martin County MPO, St. Lucie TPO, and Indian River County MPO

Local Governments: PBC and PBC Municipalities

Transit Agencies: Palm Tran and SFRTA

Airports and Seaports: Port of Palm Beach, PBC Airports, and Boca Raton Airport Authority

Regional Planning Councils: Treasure Coast Regional Planning Council (TCRPC) and South Florida Regional Planning Council (SFRPC)

Private Transportation Companies: Florida East Coast (FEC) Railway, Brightline, CSX Railway, Tropical Shipping, Uber, Lyft, Circuit, Freebee, Via, BrightBike (DecoBike LLC), etc.

Private Business Organizations: Economic Councils, Business Development Boards, Chambers of Commerce

Planning Area

The TPA is part of the Miami FL UZA/TMA with the primary planning area being the whole of Palm Beach County as identified in **Figure 1**. For context, a map of the entire Miami UZA/TMA is included in **Appendix D**.

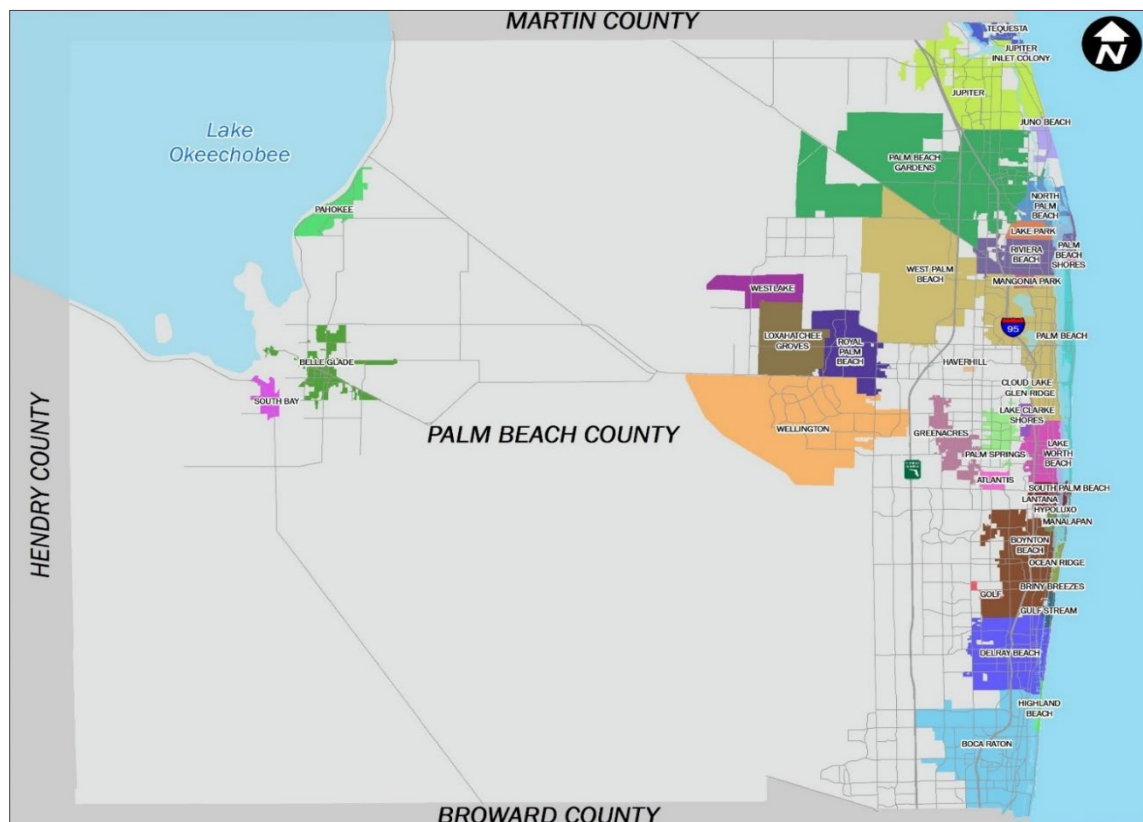

Figure 1. Palm Beach TPA Planning Area

Planning Priorities, Emphasis Areas, and Factors

Local Priorities

The prime objective of the UPWP is to aid in the development and maintenance of a coordinated transportation system plan. The UPWP is further designed to produce required work products to serve several purposes:

To progress toward selected performance measure targets through guided transportation decision making for desired transportation system performance outcomes;
To aid federal and FDOT modal agencies in reviewing, monitoring, and evaluating the transportation planning process in metropolitan areas;
To aid in advancing multimodal transportation planning on a regional and system wide level;
To improve the effectiveness of transportation decision making by guiding various jurisdictions in their individual planning efforts to ensure the efficient use of resources;
and
To develop a regional approach to transportation planning that guides the various transportation planning participants and ensures an integrated transportation analysis.

FDOT Planning Emphasis Areas (PEAs)

In addition, FDOT has issued the following Planning Emphasis Areas (PEAs):

Safety – The Florida Transportation Plan (FTP) and the State’s Strategic Highway Safety Plan (SHSP) place top priority on safety, with a state target of zero traffic fatalities and serious injuries. FDOT adopted their Strategic Highway Safety Plan in 2016, which provides more information about how the state intends to address transportation safety in the coming years. The UPWP commits the TPA to report on and monitor their progress against adopted safety performance measures, and to consider how to expand upon the level of analysis and reporting required by the performance measurement process to further study the safety challenges. The TPA is working actively to identify safety needs in its priority list, TIP and LRTP; conducting and partnering on stand-alone safety studies for areas or corridors; and raising safety considerations within modal planning elements.

Equity – Executive Order 14008, Tackling the Climate Crisis at Home and Abroad, created the “Justice40 Initiative” that aims to deliver 40 percent (40%) of the overall benefits of relevant federal investments to disadvantaged communities. This initiative supports Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, outlines federal policy, and defines equity as the consistent and systematic fair, just, and impartial treatment of individuals. The FTP seeks transportation choices that improve accessibility and equity by including a key strategy to enhance affordable transportation, service, and information access options for all ages and abilities and throughout underserved communities. The TPA will identify and implement improvements based on data-driven project prioritization that considers not only the impacts of transportation projects on a community, but also the benefits of projects that can enhance opportunities for a community. The UPWP shall address approaches to furthering transportation equity.

Resilience – With the passage of the Fixing America’s Surface Transportation (FAST) Act in 2015, resilience was introduced as a federal planning factor: “Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation.” Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts. The TPA considers both the FHWA Resilience and Transportation Planning Guide and the FDOT

Quick Guide: Incorporating Resilience within the LRTP to administer the planning process. The TPA also addresses resilience as a consideration within all its planning documents. The TPA coordinates with partner agencies responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Finally, the TPA considers the additional costs associated with reducing vulnerability of the existing transportation infrastructure to ensure that its planning documents are ultimately more realistic and cost-effective.

Emerging Mobility – Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility, to flying cars and space travel. These changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. The TPA supports innovative technologies and business practices to advance the FTP and the federal planning factors. Emerging Mobility such as Automated, Connected, Electric and Shared Vehicle (ACES) may lead to great improvements in safety, transportation choices, and quality of life for Floridians, our visitors, and the Florida economy. Though there is a great deal of speculation and uncertainty of the potential impacts these technologies will have, the TPA is working to address the challenges and opportunities presented by ACES vehicles.

Table 1 provides a matrix of how the PEAs are reflected in the TPA's UPWP work activities.

Federal Planning Factors

The FAST Act identified the following 10 planning factors to be considered by the TPA in developing the tasks and activities of the UPWP:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase the accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- Promote efficient system management and operation;
- Emphasize the preservation of the existing transportation system;
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

Table 2 below shows a matrix of how the 10 Federal Planning Factors are integrated into the UPWP work tasks.

Tackling the Climate Crisis – Transition to a Clean Energy, Resilient Future

Equity and Justice40 in Transportation Planning – Ensure public involvement in the planning process and that plans and strategies reflect various perspectives, concerns, and priorities from impacted areas.

Complete Streets – Effort should work to include provisions for safety in future transportation infrastructure, particularly those outside automobiles.

Public Involvement – Early, effective, and continuous public involvement brings diverse viewpoints into the decision making process.

Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination – FHWA Division and FTA regional offices should encourage TPAs and State DOTs to coordinate with representatives from DOD in the transportation planning and project programming process on infrastructure and connectivity needs for STRAHNET routes and other public roads that connect to DOD facilities.

Federal Land Management Agency (FLMA) Coordination – Coordinate with FLMA's in the transportation planning and project programming process on infrastructure and

connectivity needs related to access routes and other public roads and transportation services that connect to Federal lands.

Planning and Environmental Linkages (PEL) – Implement PEL as part of the transportation planning and environmental review processes.

Data in Transportation Planning – Encourage State DOTs, TPOs, and providers of public transportation to incorporate data sharing and consideration into the transportation planning process, because data assets have value across multiple programs.

Public Participation Process

The TPA continues to prioritize an increased emphasis on public engagement to promote greater awareness of TPA functions and increase information and analysis of TPA projects and programs. The TPA presents at public meetings, participates in outreach events, and provides comprehensive information on the TPA's website (PalmBeachTPA.org) and social media platforms.

The TPA's Public Participation Plan (PPP) guides the process to provide complete information, timely public notice, full public access to key decisions, and support for early and continued involvement. The PPP requires a 30-day public review and comment period for the UPWP.

The UPWP was developed in cooperation with federal, state, and regional transportation agencies, county departments and local municipalities and considers input gathered from the public during the continuing, comprehensive, and coordinated (3-C) transportation planning process. The UPWP development process follows the PPP and is reviewed by the Technical Advisory Committee (TAC), Citizen's Advisory Committee (CAC), and Vision Zero Advisory Committee (VZAC). Finally, the TPA Governing Board adopts the UPWP.

ORGANIZATION AND MANAGEMENT

The TPA's Governing Board consists of 21 members: five county commissioners, 15 elected officials from the 13 largest municipalities, and one commissioner from the Port of Palm Beach. The TPA Governing Board is responsible for providing overall policy and direction for transportation planning and serves as the coordination mechanism with various state agencies for transportation and land use plans.

The TPA's Operating Procedures facilitate efficient conduct by the TPA Governing Board and its advisory committees as it collaboratively plans, prioritizes, and funds the transportation system. The TPA Governing Board also coordinates with all Metropolitan Planning Organizations (MPOs) in the state through the Florida Metropolitan Planning Organization Advisory Council (MPOAC) and its committees. The MPOAC is composed of an elected official and staff director from each MPO in the state and serves as a forum to discuss transportation issues and provide advice and input into FDOT plans and programs. Interaction with the local municipalities occurs through the TPA Governing Board, advisory committees as well as through comprehensive planning activities. The TPA's Chief Financial Officer is responsible for developing the UPWP and budget.

In performing these functions, the TPA Governing Board is served by three advisory committees. FDOT has non-voting advisory members on the TPA Governing Board and advisory committees.

Technical Advisory Committee (TAC) - Comprised of representatives with technical expertise in transportation from local governments (municipal and county), airports, seaports, public transit agencies, school district, and health department who are involved in transportation planning and engineering.

Citizen's Advisory Committee (CAC) - Comprised of citizens reflecting a broad cross-section of local residents including minorities, elderly, and handicapped individuals as well as representation for environmental issues, business interests, the construction and development industry, the freight and goods movements industry, and private transportation providers as well as the general public.

Vision Zero Advisory Committee (VZAC) - Comprised of county and municipal planners, law enforcement and fire rescues services, school district, health department, disabled community, and active transportation advocacy groups to address the comprehensive effort in implementing pedestrian and bicycle infrastructure, initiative, and safety aligning the TPA's Vision Zero efforts.

The TPA is the Designated Official Planning Agency (DOPA) for the Palm Beach County Transportation Disadvantaged (TD) program. The TPA administers the TD Local Coordinating Board (LCB), an advisory body to the CTD, and identifies local service needs, provides information, advice, and direction to the PBC Community Transportation Coordinator (CTC) on coordination of services to be provided to the transportation disadvantaged through the Florida Coordinated Transportation System.

The TPA Governing Board is also a member of SEFTC, overseeing regional transportation planning activities for the Palm Beach TPA, Broward MPO, and the Miami-Dade TPO in Southeast Florida.

The TPA has executed the following required agreements to facilitate the transportation planning process.

MPO Interlocal Agreement between all voting members of the TPA Governing Board and FDOT – October 9, 2015 (creates the TPA and apportions membership)

Intergovernmental Coordination and Review and Public Transportation Coordination Joint Participation Agreement between the TPA, FDOT, TCRPC, SFRTA, the Port of Palm Beach, and PBC – April 21, 2008 (coordination of multimodal transportation planning and comprehensive plans)

MPO Agreement between the TPA and FDOT – Expected Execution, June 2022 (July 1, 2022 to June 30, 2024 (provides FHWA and FTA planning funds)). The MPO Agreement expires and is replaced every two years.

Public Transportation Grant Agreement G2373 between the TPA and FDOT – February 1, 2022 (provides FTA planning funds from February 1, 2021 to December 31, 2025)

TD Planning Grant Agreement between the TPA and the CTD – Expected Execution, July 1, 2022 (provides state CTD planning funds to accomplish the duties and responsibilities of the DOPA as set forth in Chapter 427, F.S., Rule 41-2 from July 1, 2022 to June 30, 2023, with a new agreement anticipated to be executed no later than July 31, 2023).

SEFTC Interlocal Agreement as amended – January 9, 2006 (regional transportation planning and coordination in South Florida)

Memorandum of Understanding between the TPA, Broward MPO, Miami-Dade TPO, and FDOT District 4 & 6 – October 4, 2019 through December 31, 2024 (coordination of Southeast Regional Planning model related activities)

Memorandum of Understanding between the TPA, Broward MPO, Miami-Dade TPO, and FDOT District 4 & 6 – September 1, 2020 through December 31, 2024 (acquisition of big data for the Southeast Regional Planning Model (SERPM) related activities)

Required Certification Statements and Assurances

In response to relevant laws and regulations governing the use of federal and state grants, the TPA includes the following certification statements and/or assurances:

Federal and/or state funds are not being used for lobbying.

Federal funds are not being used for procurement from persons who have been debarred or suspended, in accordance with the provisions of 49 C.F.R. Part 29, subparts A through E.

The TPA provides an opportunity for disadvantaged business enterprises to participate in the performance of transportation planning contracts.

The TPA has adopted and maintains a Title VI - Nondiscrimination Policy and program.

The TPA has adopted a travel policy as stated in its Personnel Handbook.

The certification statements and assurances are included in **Appendix G**.

Available Funding

To accomplish the tasks and activities identified in the UPWP, the TPA identified the following available funding sources by fiscal year.

Annual and multi-year activities, deliverables, and estimated completion dates are identified within each task. Each task is budgeted individually with funding amounts identified by source.

Figure 2. Required Activities

Additionally, the planning activities to be performed by FDOT in District 4 are shown in **Appendix E**. Please note that FDOT has elected not to identify deliverables, completion dates, funding sources, or amounts for their planning activities. Instead, FDOT noted that the list is representative of (but shall not constrain) the typical planning activities that are performed by FDOT District 4 on either a continuous basis or intermittently as needed, using State and Federal funds authorized for Planning purposes. Finally, FDOT noted that their activities may be undertaken at any time during the two-year UPWP cycle at the discretion of District 4 based on identified needs.

Purpose

Plan for a safe, efficient, connected multimodal transportation system for all users. To provide the necessary data and analysis tools to support and perform the multimodal planning processes for the TPA region, including:

- Planning and evaluation for all modes and services including pedestrian, bicycle, transit, freight, automobile, airport, seaport, intermodal, and non-emergency transportation services, and evaluate connected vehicle and autonomous vehicle (CV/AV) impacts

- Providing technical support to coordinate land use with the transportation system

Previous Work

The TPA updated and worked on implementing its Vision Zero Action Plan to influence policy, funding, and culture to improve safety for all transportation users. The TPA updated its Vision Zero Action Plan in October 2021 and presented a progress report to its Board and committees in February 2021 and in February 2022. The TPA also evaluated quarterly pedestrian and bicycle crash reports to identify potential causes and worked with partner agencies to implement safety countermeasures.

The TPA worked with Palm Tran and local municipalities on advancing roadway modifications and transit improvements identified in the US-1 Multimodal Corridor Study, including conducting lane repurposing studies with local communities, refining enhanced transit shelter locations, and prioritizing funds for Transit Signal Priority (TSP), electric buses, and enhanced transit shelters. The TPA also worked with local communities and Palm Tran to conduct walk bicycle safety audits, and Complete Streets studies to provide access to transit and improve safety for all roadway users.

The TPA collaborated with Palm Tran and SFRTA on TDP updates, evaluating new transit service, and conducting transportation planning activities for the transportation disadvantaged program. The TPA conducted an Okeechobee Blvd. and SR-7 Multimodal Corridor Study in coordination with Palm Tran, FDOT, and local municipalities along these corridors. The TPA also assisted local municipalities with establishing Quiet Zones for Brightline Phase II from West Palm Beach north to the county limit. The TPA began conducting a corridor analysis to expand Tri-Rail Service to the Veterans Affairs Medical Center along the CSX railway as well as provide new service along the FEC railway.

The TPA continued to evaluate upcoming projects for Complete Streets improvements and worked with local municipalities, Palm Tran, and roadway owners to move these projects

forward. The TPA also worked with FDOT and the County to collect and evaluate pedestrian and bicycle counts.

Staff streamlined transportation data visualizations and sharing for the public by maintaining a TPA mapping application and Open Data Hub to allow outside agencies and the public to access transportation data easily.

Participating Agencies: FDOT, FHWA, SEFTC, SFRTA, SFRPC, TCRPC, BMP0, MDTP0, Freight Industry, FDEP, PBC, School District, PBCHD, Local Municipalities, Northern and Western MPOs/TPO, Palm Tran

Purpose

The Long Range Transportation Plan (LRTP), also known as the Metropolitan Transportation Plan, maps out the next 25 years of state and federal transportation system investments in PBC. As a comprehensive analysis of the transportation system, it also includes local (county, city, and private) investments planned for the transportation system. It identifies transportation projects and services such as premium transit corridors; major roadway improvements and new interchanges; freight capacity projects (roadways, railways, seaport, and airport facilities); and non-motorized facility networks (bicycle facilities, sidewalks, and shared-use paths).

The LRTP is updated every five (5) years. The next update is the 2050 LRTP, programmed for creation in this UPWP.

Previous Work

The TPA performed planning activities in line with its 2045 LRTP network of enhanced transit corridors, priority pedestrian and bicycle facility networks, and state roadway modifications to advance safety, complete streets, enhanced transit, transportation system management & operations, and environmental resiliency.

The TPA began working with local partner agencies to discuss land use policy decisions to create greater land use and transportation connection.

Task 7. Administer the Agency

Responsible Agency: Palm Beach TPA

Participating Agencies: FHWA, FTA, PBC, Local Municipalities, FDOT, TCRPC, SFRPC, BMPO, MDTPO

Purpose

Provide the staff and resources necessary to administer the 3-C transportation planning process and to provide a fair and impartial setting for effective regional decision-making.

Previous Work

Staff performed required on-going activities including supporting the TPA Governing Board and advisory committee meetings; updated necessary documents, assisted in audits, and submitted quarterly/monthly progress reports and reimbursement requests.

The TPA adapted to the COVID-19 pandemic by modifying the conduct of public meetings by utilizing the Zoom webinar platform because it did not require the public to purchase or download any additional software or equipment to attend meetings virtually. The TPA will offer hybrid meeting options moving forward as it allows for easy access for the public to participate and provide public comment.

The TPA received a Silver Level Bicycle Friendly Business designation from the League of American Bicyclists in September 2020 and was designated a Best Workplace for Commuters in January 2021 and 2022.

The TPA executed contracts for external auditing services, building cleaning and maintenance services, copier services, a learning management system and training vendors for ongoing staff learning opportunities, and a recruitment firm to hire a permanent Executive Director.

The TPA continually updated its Personnel Handbook to become a resource for staff with workplace procedures. Additionally, the TPA amended its holiday to include Juneteenth, in line with it becoming a federal holiday.

The TPA prepared an updated Continuity of Operations Plan (COOP) in 2021 and the COOP activation is scenario-driven and is not required for all emergencies or disruptions.

Task 8. Transfers to Other Agencies

Purpose

To describe the regional planning responsibilities and funding sources for the maintenance and further development of the Southeast Regional Planning Model (SERPM) to forecast regional travel patterns and for the acquisition of big data to support the validation and calibration of SERPM in support of the metropolitan planning process. Although the funding below is available revenue of the TPA, the funding in the transfers are not directly programmed into the TPA's financial project planning grants. They passthrough FDOT to the lead agency.

Previous Work

The region has collaborated in the development and maintenance of previous versions of SERPM, a modeling tool which uses scenario forecasting to prepare for new socioeconomic environments and potential planning challenges within Southeast Florida. SERPM is updated every five years to support the development of regional and local transportation plans and other regional planning efforts. TPA staff began working with regional partners towards the implementation of SERPM 9 and collaborating on a big data purchase.

Memorandums of Understanding (MOU) have been entered jointly by the Miami-Dade TPO, Broward MPO, Palm Beach TPA, and FDOT Districts 4 and 6, to develop and maintain an effective travel demand modeling tool and transportation data collection methods within the region.
