LIST OF PRIORITY PROJECTS (LOPP)

FY 2027-2031

Scheduled for Adoption on
July 17, 2025

PalmBeachTPA.org/priorities

WHAT IS THE LIST OF PRIORITY PROJECTS (LOPP)?

The Palm Beach Transportation Planning Agency (TPA) Transportation Improvement Program (TIP) for Fiscal Years 2026 through 2030 begins with TPA Board approval of a List of Priority Projects (LOPP). Pursuant to s. 339.175(8), F.S., the TPA must transmit the project list to the Florida Department of Transportation (FDOT) by August 1 of each year to accommodate an accelerated Florida Legislative session schedule. FDOT uses the LOPP to develop its Five-Year Work Program, and the TPA uses the list to develop the TIP.

Existing TPA priorities that have not yet been implemented continue to be shown on the project list. If the lead agency for a Priority Project cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent upon the agency to provide an explanation to the Palm Beach TPA. Changes to the priority list from the previously adopted priority list are identified by underlines and ~~strikethroughs~~ in the following tables.

The TPA prepared the following LOPP, which is multimodal in nature and provides overall direction to FDOT in allocating funds. The public involvement process includes presentation and discussion of the project list at meetings open to the public; agendas for these meetings are posted on the TPA website. The LOPP will be reviewed by the Technical Advisory Committee and Citizens Advisory Committee (July 2, 2025), and Vision Zero Advisory Committee (July 3, 2025). The TPA Governing Board is expected to adopt the Annual LOPP at the meeting on July 17, 2025.

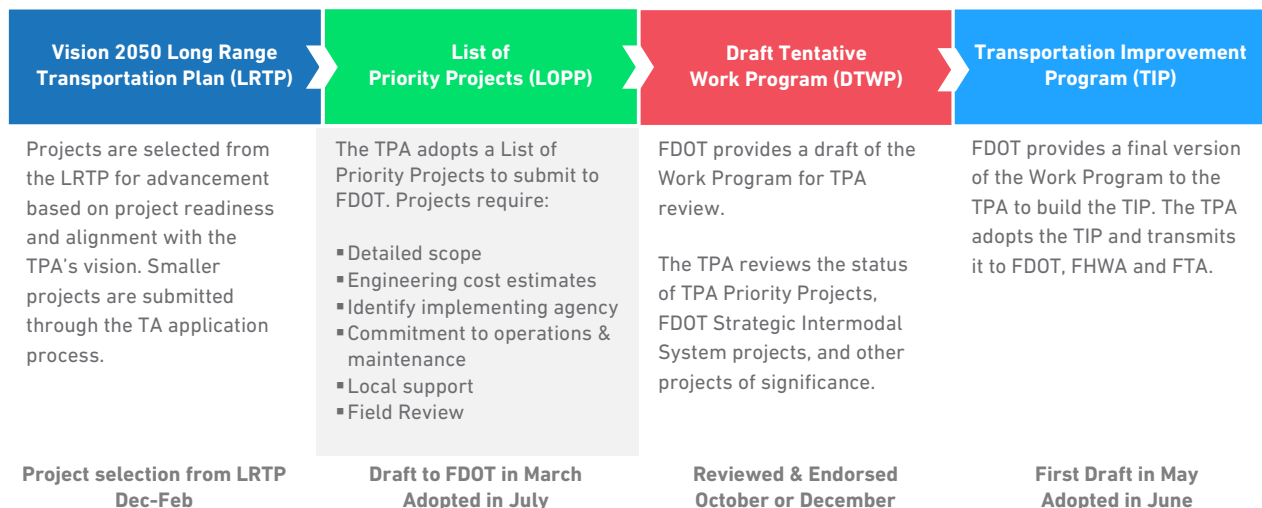

PROJECT SELECTION PROCESS

Projects begin from identification in the TPA's adopted [Long Range Transportation Plan \(LRTP\)](#). The projects are screened for alignment with the LRTP's Goals, Objectives, Strategies, and Performance Measures. Non-motorized, small-scale projects may also be submitted through the Transportation Alternatives (TA) program that aligns with the LRTP.

To be prioritized and programmed into the TIP for construction, projects require detailed scope creation, including precise limits, detailed description, and engineering cost estimates. Projects must also demonstrate local jurisdiction support, identify a constructing entity, identify ongoing operations & maintenance, and undergo a field review.

Projects are ordered by the year the project was first prioritized, followed by the prioritization in that specific year. For example, 20-1 indicates the year 2020 and the top-ranking (first) priority project from 2020.

AVAILABLE FUNDING SOURCES

The Federal and State funding sources below are based on long-range revenue forecasts from the TPA’s Long Range Transportation Plan (LRTP) and FDOT’s Work Program Fund Allocation tables. Federal transportation funding is provided through Federal Transportation Authorizations and subsequent annual appropriations. Long-range forecasts assume similar funding levels to current authorizations and are subject to change. Funding programmed for TPA Priorities may vary year-to-year depending on available revenues and project complexity, and costs.

Programs and Funding Sources	Annual Anticipated Funding
------------------------------	----------------------------

Major Projects & Local Initiatives	~\$40,340,000
---	----------------------

Projects originate from line-item Cost Feasible projects in the TPA’s 2050 LRTP and align with Goals of Safe, Efficient, Connected, Multimodal, and Resilient. Available funding typically programmed in the “New 5th Year” - FY 2031.

Sources

Surface Transportation Block Grant – Urban Area (SU)	~\$23,800,000
Federal formula funds to urbanized areas for use on the federal-aid eligible network.	

State Highway System Funds	~\$16,540,000
State funds for use on the state highway system that are not on the Strategic Intermodal System (SIS). Typical funding source is Districted Dedicated Revenue (DDR). Projects are coordinated and typically administered by FDOT.	

Transportation Alternatives (TA)	~\$5,100,000
---	---------------------

Projects originate from the annual TA application process. The application process can be found at PalmBeachTPA.org/TA. Available funding programmed in the 3rd year – FY 2029.

Sources

Transportation Alternatives – Urban Area (TALU)	~\$3,500,000
Federal formula funds to urbanized areas to use for non-motorized transportation.	

Transportation Alternatives – Any Area (TALT)	~\$1,600,000
Federal formula funds to the State to use for non-motorized transportation.	

Other Major Funding Sources Pursued for TPA Priorities

The TPA, FDOT, and local partners continuously coordinate to pursue other federal and state revenue sources. Common funding programs outside of the anticipated sources include, but are not limited to:

ANNUAL REPORT CARDS 7

STRATEGIC PLAN PURPOSE

Strategic planning is an organization's process of defining its strategy, or direction, and then directing its resources to pursue this strategy. The Palm Beach Transportation Planning Agency (TPA) established and annually updates its Strategic Plan as a measurable guide toward executing its mission and achieving its long-term vision. The Strategic Plan defines specific and incremental steps that will be initiated, monitored for timely progress, and annually reported to the TPA Governing Board and the public.

The mission and vision statements concisely communicate the agency's overall purpose and direction. Crafted by the Governing Board, Advisory Committees, Executive Director and staff, the Palm

Beach TPA's mission and vision statements are intended to be inspirational while also providing a focus and direction for the organization. Together, they guide the Governing Board in making decisions consistent with the established priorities of the TPA.

Several benefits are derived from developing and implementing the Strategic Plan. Governing Board priorities are clearly communicated for the TPA Executive Director and staff to follow. Metrics are established for measuring progress on each action and making adjustments to achieve strategic outcomes efficiently & cost-effectively. Transparency and accountability are provided to the public, the partnering organizations, and the member agencies of the TPA.

To collaboratively plan, prioritize, and fund the transportation system.

A safe, efficient, and connected multimodal transportation system.

MONITORING AND ANNUAL REPORT CARDS

Monitoring progress toward the desired outcomes informs the day-to-day administrative decisions and actions of the Executive Director, influencing the allocation of agency resources and the prioritization of board agenda items and collaborative discussions with key stakeholders and partners.

Annual reporting of outcomes allows the TPA Governing Board to fully realize and leverage the value of the TPA and informs future TPA Board decisions regarding appropriate revisions to the Strategic Plan.

To support annual review of progress, the TPA has created “report cards” that summarize the TPA’s prior performance in relation to achieving TPA Board objectives. The annual report card for FY 2025 is attached.
