Executive Summary

One of the primary roles of the Palm Beach TPA is the adoption of the Transportation Improvement Program (TIP) [23 C.F.R. § 450.324], a five-year program allocating anticipated revenues to transportation improvements to all modes of travel in Palm Beach County. The TIP identifies transportation improvements funded by Federal, State and local sources. In Florida, the TIP is based on and reflects the Florida Department of Transportation's (FDOT) Work Program for Palm Beach County for the same time period.

The TPA must adopt an updated TIP annually [§ 339.175(8), Fla. Stat.]. The TIP for Fiscal Years 2025-2029 was adopted on June 20, 2024 and the TIP for FY 2026-2030 will be considered for adoption on June 12, 2025. Prior to adoption, FDOT works to develop a Draft Tentative Work Program for FY 2026-2030 that continues to advance projects in the previously adopted TIP and allocates funding, to the maximum extent feasible, the Palm Beach TPA's List of Priority Projects (LOPP) that were adopted July 18, 2024. The graphic below illustrates the TIP development process.

Transportation Improvement Program (TIP) Development Process

Role of the TPA in Reviewing the Draft Tentative Work Program

Florida requires that that each FDOT district office shall make a presentation at a meeting of each metropolitan planning organization in the district [§339.135(4)(d), Fla. Stat. (2014)] to:

1. Hear requests for new projects to be added to the district work program.
 - The tables summarizing the status of TPA priority projects facilitate this discussion.
2. Hear requests for existing projects to be deleted from the district work program.
 - The table summarizing new FDOT Projects and the full FDOT Draft Work Program and committee presentations facilitate this discussion.
3. Determine the necessity of making any changes to projects included or to be included in the district work program.
 - § 339.135(3)(c)(3), Fla. Stat. (2014) further stipulates that the district shall provide written justification for any project proposed to be rescheduled or deleted from the district work program which project is part of the metropolitan planning organization's transportation improvement program and is contained in the last 4 years of the previous adopted work program.

To facilitate the review of the draft tentative work program according to these purposes, the TPA has created the following summary tables:

1. TPA Major Projects
2. Local Initiatives Projects
3. Transportation Alternatives Projects
4. Shared Used Network (SUN) Trail Projects
5. Active & Under Construction Projects (previously programmed in the work program and are currently active)

Table 1: Major Projects

Projects are predominantly on state roadways using state funding sources, including but not limited to District Dedicated Revenue (DDR) and Primary Highways & Public Transportation Funds (DS).
 Projected funding availability is anticipated to be approximately \$20.4 Million/year but varies yearly. FDOT requests the TPA "oversubscribe" to ensure programming of all available funds.

Table 2: Local Initiatives Program

This program is for projects on non-state roadways that are federal-aid eligible. Funding typically comes from the \$22.8 Million/year federal Surface Transportation Block Grant (STBG) program, known locally as SU funds, allocated to the TPA for prioritization. STGB funds allocated to FDOT, known as SA, sometimes supplement the projects.
