INTRODUCTION

The Palm Beach MPO, doing business as the Palm Beach Transportation Planning Agency (TPA or MPO), serves as the designated Metropolitan Planning Organization to administer the federally mandated transportation planning process for all of Palm Beach County. The TPA is part of a larger South Florida urbanized area referred to as the Miami FL Urbanized Area (UZA) that also includes the Miami-Dade Transportation Planning Organization (TPO), the Broward MPO, and a small portion of the Martin MPO.

The Unified Planning Work Program (UPWP) is the TPA's plan of operations and budget which identifies the agency's transportation planning activities for the two-year period starting July 1, 2024 through June 30, 2026. The UPWP is guided by the TPA's vision of a <u>safe, efficient, connected, and multimodal transportation system.</u> The UPWP includes a description of planning work and resulting products, responsible agencies, schedules, costs, and funding sources. The UPWP is approved by the TPA Governing Board, available in **Appendix B**.

The TPA's mission to <u>collaboratively plan</u>, <u>prioritize and fund the transportation system</u> is carried out pursuant to 23 United States Code (U.S.C.) §134, 49 U.S.C. §5303, 23 Code of Federal Regulations (C.F.R.) §450 Subpart C, and Section 339.175, Florida Statutes (F.S.). The TPA is in an air quality attainment area and does not anticipate completing any non-attainment planning activities.

The TPA is part of the Miami FL UZA/TMA with the primary planning area being the whole of Palm Beach County as identified in **Figure 1**. For context, a map of the entire Miami UZA/TMA is included in **Appendix D**.

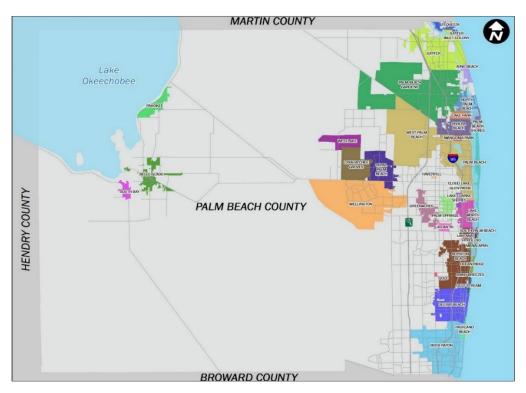

Figure 1. Palm Beach TPA Planning Area

Available Funding

The planning activities in the UPWP are predominately funded through federal grant reimbursements and a smaller portion funded through state and local sources. Funding sources include:

<u>Consolidated Planning Grant (CPG)</u> – an agreement that allows the consolidation of the two main federal planning funds, FHWA PL and FTA PL.

<u>FHWA Planning (PL) Funds</u> – federal highway funds apportioned by formula to each MPO to carry out the transportation planning process

<u>FTA Planning (PL) Funds</u> – federal transit funds apportioned by formula to each MPO to carry out the transportation planning process

<u>FHWA Surface Transportation Block Grant (STBG) Urbanized Areas (SU) Funds</u> –federal highway funds apportioned by formula to each large urban area MPO to plan, implement, and construct transportation projects.

<u>Commission for Transportation Disadvantage (CTD) State Funds –</u> state funding to implement transportation disadvantaged planning activities.

Local Funds – dues paid at 10-cents per capita by members on the TPA Governing Board.

The FDOT and the Palm Beach TPA participate in the Consolidated Planning Grant (CPG). The CPG enables FDOT, in cooperation with the MPO, the Federal Highway Administration (FHWA), and Federal Transit Administration (FTA), to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division. These funds are annually apportioned to FDOT as the direct recipient and allocated to the MPO by FDOT utilizing formulas approved by the MPO, FDOT, FHWA, and FTA in accordance with 23 CFR 420.109 and 49 U.S.C. Chapter 53. The FDOT is fulfilling the CPG's required 18.07% non-federal share (match) using Transportation Development Credits as permitted by 23 CFR 120(j) and FTA C 8100.1D."

Federal funding requires a local match. 23 U.S.C. §120 permits a State to use certain toll revenue expenditures as a credit toward the non-Federal matching share of all programs authorized by Title 23, (except for Emergency Relief Programs) and for transit programs authorized by Chapter 53 of Title 49, U.S.C. This is in essence a "soft-match" provision that allows the Federal share to be increased up to 100% to the extent credits are available. The "soft match" amount being utilized to match the FHWA PL, and FHWA SU, and FTA 5305d funding in the UPWP is 18.07% of FHWA program funds for a total of \$2,025,445.

Please note that all eligible expenses will be reimbursed on an actual cost basis and therefore an indirect rate will not be utilized.

Local Priorities

The prime objective of the UPWP is to aid in the development and maintenance of a coordinated transportation system plan. The UPWP is further designed to produce required work products to serve several purposes:

- To progress toward selected performance measure targets through guided transportation decision making for desired transportation system performance outcomes;
- To aid federal and FDOT modal agencies in reviewing, monitoring, and evaluating the transportation planning process in metropolitan areas;
- To aid in advancing multimodal transportation planning on a regional and system wide level;
- To improve the effectiveness of transportation decision making by guiding various jurisdictions in their individual planning efforts to ensure the efficient use of resources; and
- To develop a regional approach to transportation planning that guides the various transportation planning participants and ensures an integrated transportation analysis.

FDOT Planning Emphasis Areas (PEAs)

In addition, FDOT has issued the following Planning Emphasis Areas (PEAs):

- Safety The Florida Transportation Plan (FTP) and the State's Strategic Highway Safety Plan (SHSP) place top priority on safety, with a state target of zero traffic fatalities and serious injuries. FDOT adopted their Strategic Highway Safety Plan in 2016, which provides more information about how the state intends to address transportation safety in the coming years. The UPWP commits the TPA to report on and monitor their progress against adopted safety performance measures, and to consider how to expand upon the level of analysis and reporting required by the performance measurement process to further study the safety challenges. The TPA is working actively to identify safety needs in its priority list, TIP and LRTP; conducting and partnering on stand-alone safety studies for areas or corridors; and raising safety considerations within modal planning elements.
- Equity Executive Order 14008, Tackling the Climate Crisis at Home and Abroad, created the "Justice40 Initiative" that aims to deliver 40 percent (40%) of the overall benefits of relevant federal investments to disadvantaged communities. This initiative supports Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, outlines federal policy, and defines equity as the consistent and systematic fair, just, and impartial treatment of individuals. The FTP seeks transportation choices that improve accessibility and equity by including a key strategy to enhance affordable transportation, service, and information access options for all ages and abilities and throughout underserved communities. The TPA will identify and implement improvements based on data-driven project prioritization that considers not only the impacts of transportation projects on a community, but also the benefits of projects that can enhance opportunities for a community. The UPWP shall address approaches to furthering transportation equity.
- Resilience With the passage of the Fixing America's Surface Transportation (FAST) Act in 2015, resilience was introduced as a federal planning factor: "Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation." Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts. The TPA considers both the FHWA Resilience and Transportation Planning Guide and the FDOT Quick Guide: Incorporating Resilience within the LRTP to administer the planning process. The TPA also addresses resilience as a consideration within all its planning documents. The TPA coordinates with partner agencies responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Finally, the TPA considers the additional costs associated with reducing the vulnerability of the existing transportation infrastructure to ensure that its planning documents are ultimately more realistic and cost-effective.
- Emerging Mobility Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility, to flying cars and space travel. These changes may be disruptive and transformational, with impacts on safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. The TPA supports innovative technologies and business practices

to advance the FTP and the federal planning factors. Emerging Mobility such as Automated, Connected, Electric and Shared Vehicle (ACES) may lead to great improvements in safety, transportation choices, and quality of life for Floridians, our visitors, and the Florida economy. Though there is a great deal of speculation and uncertainty about the potential impacts these technologies will have, the TPA is working to address the challenges and opportunities presented by ACES vehicles.

Table 3 provides a matrix of how the PEAs are reflected in the TPA's UPWP work activities.

Federal Planning Factors

9. Agency Expenditures with Local Funds

The FAST Act identified the following 10 planning factors to be considered by the TPA in developing the tasks and activities of the UPWP:

- 1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- 2. Increase the safety of the transportation system for motorized and non-motorized users;
- 3. Increase the security of the transportation system for motorized and non-motorized users;
- 4. Increase the accessibility and mobility of people and freight;
- 5. Protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns;
- 6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- 7. Promote efficient system management and operation;
- 8. Emphasize the preservation of the existing transportation system;
- 9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- 10. Enhance travel and tourism.

Table 4 below shows a matrix of how the 10 Federal Planning Factors are integrated into the UPWP work tasks.

- Tackling the Climate Crisis Transition to a Clean Energy, Resilient Future
- Equity and Justice40 in Transportation Planning Ensure public involvement in the planning process and that plans and strategies reflect various perspectives, concerns, and priorities from impacted areas.
- **Complete Streets** Effort should work to include provisions for safety in future transportation infrastructure, particularly those outside automobiles.
- **Public Involvement** Early, effective, and continuous public involvement brings diverse viewpoints into the decision making process.
- Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination FHWA Division and FTA regional offices should encourage TPAs and State DOTs to coordinate with representatives from DOD in the transportation planning and project programming process on infrastructure and connectivity needs for STRAHNET routes and other public roads that connect to DOD facilities.
- Federal Land Management Agency (FLMA) Coordination Coordinate with FLMAs in the transportation planning and project programming process on infrastructure and connectivity

- needs related to access routes and other public roads and transportation services that connect to Federal lands.
- Planning and Environmental Linkages (PEL) Implement PEL as part of the transportation planning and environmental review processes.
- Data in Transportation Planning Encourage State DOTs, TPOs, and providers of public transportation to incorporate data sharing and consideration into the transportation planning process, because data assets have value across multiple programs.

Transportation Planning Activities

Continuing

Many TPA planning activities are continuing from previous efforts, as highlighted below.

- Continue to engage the public through TPA social media platforms, events, and outreach to news media;
- The Vision 2050 Long Range Transportation Plan (LRTP) started in early 2023, with an anticipated adoption date of December 2024.
- Assists local government agencies in evaluating, identifying and prioritizing funds for multimodal infrastructure projects that increase safety and access for all users;
- Coordinates with Palm Tran and South Florida Regional Transportation Authority (SFRTA) in planning transit services and performing updates to their Transit Development Plans (TDP);
- Continuously monitors all federally required and local performance measures and identifies projects and strategies to achieve selected targets;
- Reviews the Strategic Intermodal System (SIS) Cost Feasible Plan for consistency and potential inclusion in the TPA's LRTP and TIP;
- Reviews transportation projects through the Electronic Review Comments (ERC), Multimodal Scoping Checklist (MMSC), and other processes.

Comprehensive

The planning activities of the TPA are comprehensive in addressing all modes of transportation (including walking, biking, transit, commercial vehicles, personal vehicles, etc.) and the manner in which they serve users of all ages and abilities.

Cooperative

The TPA cooperates with many participating agencies within Palm Beach County (PBC) and on a regional and statewide level to establish a safe, efficient, connected, and multimodal transportation system. The following are a list of entities that the TPA interacts with throughout the year:

- Federal Agencies: FHWA and FTA
- State Agencies: FDOT, Florida CTD, Florida Department of Environmental Protection (FDEP),
 Florida Department of Economic Opportunity
- Metropolitan Planning Organization (MPO) Agencies: Florida MPO Advisory Council (MPOAC), Southeast Florida Transportation Council (SEFTC), Miami-Dade Transportation Planning Organization (TPO), Broward MPO, Martin County MPO, St. Lucie TPO, and Indian River County MPO

- Local Governments: PBC and PBC Municipalities
- Transit Agencies: Palm Tran and SFRTA
- Airports and Seaports: Port of Palm Beach, PBC Airports, and Boca Raton Airport Authority
- Regional Planning Councils: Treasure Coast Regional Planning Council (TCRPC) and South Florida Regional Planning Council (SFRPC)

- Private Transportation Companies: Florida East Coast (FEC) Railway, Brightline, CSX Railway, Tropical Shipping, Uber, Lyft, Circuit, Freebee, Via, BrightBike (DecoBike LLC), etc.
- Private Business Organizations: Economic Councils, Business Development Boards, Chambers of Commerce

Public Participation Process

The TPA continues to prioritize an increased emphasis on public engagement to promote greater awareness of TPA functions and increase information and analysis of TPA projects and programs. The TPA presents at public meetings, participates in outreach events, and provides comprehensive information on the TPA's website PalmBeachTPA.org and social media platforms.

The TPA's Public Participation Plan (PPP) guides the process to provide complete information, timely public notice, full public access to key decisions, and support for early and continued involvement. The PPP requires a 30-day public review and comment period for the UPWP.

The UPWP was developed in cooperation with federal, state, and regional transportation agencies, county departments and local municipalities and considers input gathered from the public during the continuing, comprehensive, and coordinated (3-C) transportation planning process. The UPWP development process follows the PPP and is reviewed by the Technical Advisory Committee (TAC), Citizen's Advisory Committee (CAC), and Vision Zero Advisory Committee (VZAC). Finally, the TPA Governing Board adopts the UPWP.

ORGANIZATION AND MANAGEMENT

The TPA's Governing Board consists of 21 members: five County Commissioners, 15 elected officials from our 13 largest municipalities, and one Port of Palm Beach Commissioner. The TPA Governing Board is responsible for providing overall policy and direction for transportation planning and serves as the coordination mechanism with various state agencies for transportation and land use plans.

The TPA's Operating Procedures facilitate efficient conduct by the TPA Governing Board and its advisory committees as it collaboratively plans, prioritizes, and funds the transportation system. The TPA Governing Board also coordinates with all Metropolitan Planning Organizations (MPOs) in the state through the Florida Metropolitan Planning Organization Advisory Council (MPOAC). The MPOAC is composed of an elected official and staff director from each MPO in the state and serves as a forum to discuss transportation issues and provide advice and input into FDOT plans and programs. Interaction with the local municipalities occurs through the TPA Governing Board, advisory committees as well as through planning activities.

In performing these functions, the TPA Governing Board is served by three advisory committees. FDOT has non-voting advisory members on the Governing Board and committees.

- **Technical Advisory Committee (TAC)** Comprised of representatives with technical expertise in transportation from local governments (municipal and county), airports, seaports, public transit agencies, school district, and health department who are involved in transportation planning and engineering.
- Citizen's Advisory Committee (CAC) Comprised of citizens reflecting a broad cross-section of local residents including minorities, elderly, and handicapped individuals as well as representation for environmental issues, business interests, the construction and development industry, the freight and goods movements industry, and private transportation providers as well as the general public.
- Vision Zero Advisory Committee (VZAC) Comprised of county and municipal planners, law enforcement and fire rescue services, school district, health department, disabled community, and active transportation advocacy groups to address the comprehensive effort in implementing pedestrian and bicycle infrastructure, initiative, and safety aligning the TPA's Vision Zero efforts.

The TPA is the Designated Official Planning Agency (DOPA) for the Palm Beach County Transportation Disadvantaged (TD) program. The TPA administers the TD Local Coordinating Board (LCB), an advisory body to the CTD, and identifies local service needs, provides information, advice, and direction to the PBC Community Transportation Coordinator (CTC) on coordination of services to be provided to the transportation disadvantaged through the Florida Coordinated Transportation System.

The TPA Governing Board is also a member of SEFTC, overseeing regional transportation planning activities for the Palm Beach TPA, Broward MPO, and the Miami-Dade TPO in Southeast Florida.

The TPA has executed the following required agreements to facilitate the transportation planning process:

- MPO Interlocal Agreement between all voting members of the TPA Governing Board and
 FDOT October 9, 2015 (creates the TPA and apportions membership).
- Intergovernmental Coordination and Review and Public Transportation Coordination Joint Participation Agreement between the TPA, FDOT, TCRPC, SFRTA, the Port of Palm Beach, and PBC – April 21, 2008 (coordination of multimodal transportation planning and comprehensive plans).
- MPO Agreement between the TPA and FDOT expected execution June 2024 (July 1, 2024 to June 30, 2026 (provides FHWA PL, SU and FTA PL planning funds)). The MPO Agreement expires and is replaced every two years.
- Public Transportation Grant Agreement G2373 between the TPA and FDOT executed February 1, 2022 (provides FTA planning funds from February 1, 2021 to December 31, 2025.
- TD Planning Grant Agreement between the TPA and the CTD expected execution July 1, 2024 (provides state CTD planning funds to accomplish the duties and responsibilities of the DOPA as set forth in Chapter 427, F.S., Rule 41-2 from July 1, 2024 to June 30, 2025, with a new agreement anticipated to be executed no later than July 31, 2025.
- **SEFTC Interlocal Agreement as amended** executed January 9, 2006 (regional transportation planning and coordination in South Florida).
- Memorandum of Understanding between the TPA, Broward MPO, Miami-Dade TPO, and FDOT District 4 & 6 – October 4, 2019 through December 31, 2024 (coordination of Southeast Regional Planning model related activities).
- Memorandum of Understanding between the TPA, Broward MPO, Miami-Dade TPO, and FDOT District 4 & 6 – September 1, 2020 through December 31, 2024 (acquisition of big data for the Southeast Regional Planning Model (SERPM) related activities).

- The TPA has adopted and maintains a Title VI Nondiscrimination Policy and program.
- The TPA has adopted a travel policy as stated in its Personnel Handbook.

The certification statements and assurances are included in **Appendix G**.

REQUIRED ACTIVITIES

The TPA's required activities are organized into eight (8) tasks to carry out the 3-C transportation planning process, guided by the TPA's adopted mission and vision statements. Annual and multi-year activities, deliverables, and estimated completion dates are identified within each task. Each task is budgeted individually with funding amounts identified by source. Additionally, the planning activities to be performed by FDOT in District 4 are shown in **Appendix E** and the planning activities to be performed by Palm Tran are shown in **Appendix F**.

The TPA also updated its process for evaluating countywide pedestrian and bicycle crashes to better coordinate with partners. Finally, the TPA conducted ten (10) walking and or bicycling safety audits to identify projects and safety improvements.

The TPA worked with Palm Tran, local municipalities, and Palm Beach County on advancing roadway modifications and transit improvements, such as the Okeechobee and SR-7 Multimodal Corridor Study. Corridor planning also included conducting lane repurposing for the purposes of new pedestrian, bicycle, and transit services. The TPA also worked towards refining new transit shelter locations, and prioritizing funds for Transit Signal Priority (TSP), electric buses, and enhanced transit shelters.

The TPA collaborated with Palm Tran and SFRTA on evaluating new transit service and conducting transportation planning activities for the transportation disadvantaged program. The TPA conducted an analysis to expand Tri-Rail Service to the Veterans Affairs Medical Center along the CSX railway as well as provide new service along the FEC railway.

The TPA continues to evaluate upcoming projects for Complete Streets improvements and worked with local municipalities, Palm Tran, and roadway owners to move these projects forward. The TPA also worked with FDOT and the County to collect and evaluate pedestrian and bicycle counts.

Staff streamlined transportation data visualizations and sharing for the public by maintaining a TPA mapping application and Open Data Hub to allow outside agencies and the public to access transportation data easily.

Task 8. Transfers to Other Agencies

Purpose

To describe the regional planning responsibilities and funding sources for the maintenance and further development of the Southeast Regional Planning Model (SERPM) to forecast regional travel patterns and for the acquisition of big data to support the validation and calibration of SERPM in support of the metropolitan planning process. Although the funding below is available revenue of the TPA, the funding in the transfers are not directly programmed into the TPA's financial project planning grants. They passthrough FDOT to the lead agency.

Previous Work

The region has collaborated in the development and maintenance of previous versions of SERPM, a modeling tool which uses scenario forecasting to prepare for new socioeconomic environments and potential planning challenges within Southeast Florida. SERPM is updated every five years to support the development of regional and local transportation plans and other regional planning efforts. TPA staff began working with regional partners towards the implementation of SERPM 9 and collaborating on a big data purchase.

Memorandums of Understanding (MOU) have been entered jointly by the Miami-Dade TPO, Broward MPO, Palm Beach TPA, and FDOT Districts Four and Six, to develop an effective travel demand modeling tool and transportation data collection methods for transportation planning in the Tri-County Region. The MOUs cover the following activities:

- a) On-going travel demand modeling efforts related to SERPM 9 maintenance (Activity 1),
- b) Future tasks to support the next generation of SERPM, also referred to as SERPM 10 (Activities 2 and 3),

APPENDIX H

TPA Travel Policy

H. Jury Duty and Witness Duty

Leave of absence with pay will be granted to an employee to perform jury duty or testify as a witness when legally required unless the employee is the plaintiff or defendant. Employees are required to submit a copy of the summons or subpoena to appear in court to their supervisor before such leave is granted.

I. Parental Leave

- 1. The purpose of paid parental leave, also known as maternity/paternity leave, is to enable eligible employees to care for and bond with a newborn, newly adopted, newly placed foster child, or with a child newly placed in the employee's guardianship, or in loco parentis (qualified placement). The paid parental leave program is available to both male and female eligible employees who have been employed by the TPA full-time for at least six (6) months.
- 2. An "eligible employee" includes a mother, father, stepparent, legal guardian, individual who is in loco parentis, or certified domestic partner of the parent at the time of the birth or date of the adoption or placement of the child.
- 3. Eligible employees will be granted a maximum of six (6) weeks of paid parental leave. An eligible employee who is the birthing mother may receive an additional two (2) weeks of paid leave, if it is deemed medically necessary for the birthing mother's physician, by written documentation.
- 4. In no case will an employee receive more than one period of paid paternal leave in a rolling 12-month period, regardless of whether more than one birth, adoption, or qualified placement event occurs within that 12-month period.
- 5. Employees are required to return to work for one-year following use of the paid parental leave. Further, any employee who fails to return to work due to a voluntary termination shall repay the TPA in an amount equivalent to the value of the paid parental leave taken, either directly or through deductions from his or her final paycheck if the balance is sufficient to cover the amount owed, or through a combination thereof.
- 6. Upon termination of employment with the TPA, an employee will not be paid for any unused paid parental leave.

2.5 Travel

- A. Applicability. The TPA's travel policy applies to all TPA staff, Governing Board members, appointed officials, advisory committee members, interns, and other authorized officials traveling on official business paid for by the TPA.
- B. Authorization. The TPA Governing Board Chair must authorize travel by the Executive Director, any Governing Board members, all committee members, and all community representatives. The

Executive Director must authorize travel for all TPA staff. Travel must be authorized in advance of the travel occasion to be eligible for TPA payment. The number of individuals traveling to any one event shall be monitored and limited to maintain the local operational capacity of the TPA and to maximize the beneficial purposes of the travel occasion for the TPA. TPA staff shall report all authorized travel to the full Governing Board as soon as practicable following the travel occasion.

- C. Travel Costs. All authorized parties traveling on official business for the TPA are expected to seek advanced registration discount rates, to travel by the most economical and efficient means to/from the travel occasion, and to select reasonably priced lodging accommodations for the travel occasion.
 - 1. Registration. The TPA shall pay actual registration costs for authorized travel either by direct payment to the vendor or as a reimbursement for traveler-paid registration fees.
 - 2. Transportation. The traveler must compare the cost and time associated with means of travel by personal vehicle, travel by rental car, travel by public or private surface transit, and travel by commercial or general airplane. The TPA will pay or reimburse the traveler for the most economical (cost) and efficient (time) travel option to/from the event, even if the traveler elects to use another option. The Traveler is responsible for providing the full cost comparisons at the time of the travel request. Travel by personal vehicle shall be reimbursed utilizing the federal mileage rate, as amended from time to time.
 - 3. Lodging Expenses. The traveler is expected to plan in advance and with sufficient notice to stay on the premises for a travel-related event. The TPA will pay or reimburse up to the amount for the standard room accommodations or lowest cost option available in the negotiated event room block. In such case where the negotiated room block rate is not available or does not exist, the traveler must compare the available lodging within a 3 mile radius and select the most economical and efficient alternative. Exceptions to these requirements may be made by the Executive Director on a situational basis based on safety, meeting events, and/or logistics.
 - 4. Meal Allowances. The TPA shall pay for meals when travel occurs during meal times: 1) for all overnight travel events, and 2) for same-day travel to a destination at least 100 miles away from the TPA office. The payment shall be in the following amounts:

a. Breakfast: \$10.00

b. Lunch: \$15.00

c. Dinner: \$30.00

5. Incidental Travel Expenses. The TPA shall reimburse for incidental travel expenses including tolls, local transportation costs (cab fares, TNC fares, transit fares, bike share, etc.), parking, etc. pursuant to federal and state regulations.

- 6. Traveler Conduct. TPA staff and Board members are expected to attend applicable training sessions offered during normal business hours and to adhere to all travel and rules of conduct policies.
- 7. Travel Advances. The TPA will not authorize travel advances. The TPA will either prepay by direct payment to the vendor or pay a reimbursement to the traveler for travel-related costs.

Since the UPWP is the "Scope of Service" for the FDOT/MPO Agreement, it is important to confirm that the total amounts for Year 1 and Year 2 in the UPWP also match what is shown on the FDOT/MPO Agreement.

- Do the FINAL UPWP PL amounts shown in Year 1 plus Year 2 match what is shown on the new FDOT/MPO Agreement? Select response
- Does Other FHWA funding (i.e., SU, CMAQ, etc.) amounts shown in Year 1 and Year 2 match what is shown on the new FDOT/MPO Agreement? Select response

| Please provide documentation verifying funding levels available to the MPO to FHWA and FTA prior to the final UPWP submission. The UPWP will be approved only for the levels of funding available and verified from the Central Office PL fund Coordinator and the Districts' Work programs for STBG levels. Currently, we do not have the amounts of SU funds that are programmed for the MPO. | Funding levels are shown in the work program. | The UPWP does not demonstrate that the 2.5% set-aside for Complete Streets is met for the MPO PL funds. Please revise the UPWP to identify how this requirement has been met. | A footnote was added to the Activities in Task 2 Budget table. | | |
| Regional Planning -Table 21. Task 8 Budget for Fiscal Years 2025 and 2026 does not reflect anything for FY 2025. Is Palm Beach TPA transferring \$166,666 to Miami-Dade TPO? This transfer is reflected in Broward MPO's and Miami-Dade TPO's UPWPs. | There is no anticipated transfer in FY 2025. Note that in the Broward MPO UPWP FY 2025 & FY 2026 Task 6, the FY 2025 includes a note that the funds were transferred in FY 2023. Note that the Miami-Dade TPO does not include any anticipated transfer and does not include the note. | | |
| Page 3/Table 1: Prior to closing out the FY2023-2024, did the TPA amend the UPWP to include the full apportions? If not, with the remaining apportionment that was not programmed be apart of the carry forward funds? | Yes, the remaining apportionment that was not programmed will be a part of the carry forward funds shown in the first line of contract G1031 in FY 2024. This amount is anticipated to change from \$166,666 to \$250,000 of PL in the final version. Once the remaining balance after FY 23-24 closeout is complete, we will amend that into the 2nd year of FY 2026. | | |

| Task 2: Any planning activity funded with 5307 and discretionary funds that will be applied to a FTA grant should be documented with the following information: sponsor, completed by, study/plan short title, programmed year, status (ie: (bi-)annual, carried forward from xxx, new, underway, etc.), project schedule, brief scope of work/deliverables, funding source, and federal/nonfederal/total amounts. This information is needed to verify consistency with the applying agency's TrAMS application. | The UPWP only programs specific FTA 5305 funding in the current UPWP. This upcoming UPWP is a consolidated planning grant. However, it does not utilize 5307 funding. If we need to be showing certain 5307 funding that our transit agencies get, or additional discretionary funding, please let us know. |

This comment is also applicable to other tables within the appendix. ② There are multiple federal sources (PL/SU) documented in this draft which this table does not advise which funding sources are applied. | This is updated. |
| For TMAs all major transportation planning efforts/studies within the MPO boundaries should be described in the UPWP (including corridor and sub-area studies in accordance with 23 CFR 450.318) regardless of source of funding or entity undertaking the work. | Appendix E displays the FDOT D4 Planning Activites and Appendix F displays the Palm Tran FTA Planning Activites. |

| All Agreements or Certifications including Debarment and Suspension, Contracts, Grants, and Cooperative Agreements, Title VI Nondiscrimination Policy Statement and Disadvantaged Business Enterprise (DBE) statements should be signed and dated, and included in the final copy of the document. | This is updated. |
| When submitting the final UPWP for approval, please include a copy of all the reviewing agencies' comments and how the MPO addressed each comment. This can be included as an appendix in the UPWP. | These will be provided by final adoption. |
| Funding source tables should document the total cost and the federal/nonfederal shares. The tables only illustrate the federal amounts; thus, the proportions are not verifiable. | The majority of the Task Budget tables only include Federal PL and SU funding. The other funding sources (State and Local) show up when funding is programmed for those Tasks. Task 9 includes the local funds. |
| If an activity was not completed within the prescribed target dates and the completion date rolled to another year, be sure to highlight the activity in the end products. Be sure to do the same for the associated funds. | It is not anticipated that there will be any deobligation from FY 2024 and will go through a future amendment if needed. |
